

Print Tracker Announces Partnership with SearchExpress

Dateline – Boise, Idaho, USA

Print Tracker™ is proud to announce partnership with Executive Technologies, Inc. dba SearchExpress. Offering a single solution to collect imaging device information and provide secure access to printed and stored documents, Print Tracker and SearchExpress have teamed to present a **Document Management Appliance – PST**. This tool combines a dealer's MPS and Document Management processes into a deliverable package that is simple to understand, trouble-free to implement, and more importantly, *easy to sell*.

"We are excited for the opportunity to combine forces with a strong company like Print Tracker", said SearchExpress VP of Sales, Frank Malloch. "By, recognizing the need to move toward a true Managed Document Solution, the end-user and their dealer both benefit."

Two different technologies; one deployment. Installed on the end-user's network to solve business needs, reduce customer costs, and help dealerships secure customers into the future; this is a "point-of-solution" sale. And remember, solution sales help drive MFP sales. For details, please click on the links below:
