

Print Tracker's Brian Dawson Honored with MPSA Individual Recognition Award**Dateline – Boise, Idaho, USA**

Print Tracker Sales and Marketing Director Brian Dawson was honored with an Individual Recognition award presented during the Photizo Transform event in Louisville, KY, on June 2. This recognition was given to individuals whose contributions in time, content and resources have gone above and beyond to better the broader community.

"The MPSA executive board wanted to recognize the excellence that exists within our member community," said MPSA President Greg Walters. "These awards recognize individuals and companies within that community who are innovators, who continually go above and beyond the call of duty and help grow our organization and our industry."

See the complete MPSA press release in the link <http://yourmpsa.org/News/PR/1562338>.

"I was flattered to receive this award," said Dawson. "To even be considered among our group's outstanding and contributing membership is quite humbling."

Shortly after joining Print Tracker in early 2009, Dawson became a charter member of the MPSA. He has participated in that group's Standards and Best Practices Committee Since 2011. In December 2013, Dawson was appointed Standards and Best Practices Committee co-chairperson for 2014.

Brian is the primary contributor to the Print Tracker Blog series "Managed Print Basics – Becoming an MPS Champion ..." which can be accessed at <http://printtracker.net/?q=blog>. For more information about Print Tracker, please contact:
